

Iodine • Selenium • Cobalt

FOR CATTLE

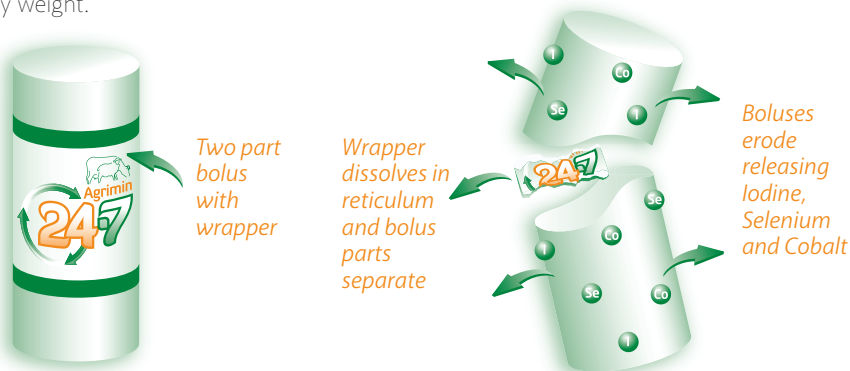

Description

A sustained release bolus containing iodine, selenium and cobalt. Intended for breeding cows on grass or forage based diets. Agrimin 24-7 Iodine · Selenium · Cobalt is designed for situations where iodine supplementation is essential in the run up to calving and service but where additional copper is not required.

Agrimin 24-7 Iodine · Selenium · Cobalt supplies the animal's full daily requirement of each essential trace element for 180 days.

Bolus Technology

Agrimin 24-7 Iodine · Selenium · Cobalt boluses are for use in breeding cattle over 400kg body weight.

Agrimin 24-7 Iodine · Selenium · Cobalt boluses are designed to lie in the reticulum. The wrapper on the bolus dissolves and the bolus breaks into two parts. These erode and dissolve thus providing a continuous and regular supply of nutrients to the animal.

Composition

	Active composition	Daily supply over 180 days from 160g bolus
Cobalt (Cobalt Carbonate)	2,973 mg/kg	2.6 mg
Iodine (Calcium Iodate)	30,839 mg/kg	27.4 mg
Selenium (Sodium Selenate)	1,387 mg/kg	1.2 mg

Iodine • Selenium • Cobalt

FOR CATTLE

When to use Agrimin 24·7 Iodine • Selenium • Cobalt

Benefits

- Eroding technology means consistent supply of trace elements
- Delivers largest available daily supply of iodine
- Delivers full daily requirement of selenium and cobalt
- Free of copper – important for closely managed dairy cows
- Strong healthy calves
- Easier, cleaner calvings
- Optimise conception rates
- Reduced calving spread

Efficacy

Agrimin 24·7 has been the subject of a detailed R&D programme both at Glasgow Veterinary School and in New Zealand. A variant of this bolus technology has been successfully launched in NZ. Trials in cattle have confirmed an excellent sustained release profile, which ensures that iodine, selenium and cobalt levels are maintained throughout the active life of the bolus.

Administration

One 160g bolus should be given to each animal.

Use only approved Agrimin bolus guns.

Agrimin 24·7 Iodine · Selenium · Cobalt boluses are available in packs of 10 boluses.
